

STATE OF THE NATION

EDUCATION

SOLUTION: REFORM THE SYSTEM

SOME OF THE 2019 LEKGOTLA OUTCOMES:

- Strengthen early learning foundations
- Strengthen reading as a key priority in early grades
- Intensification of the roll out of ICTs in preparation for the 4th Industrial Revolution
- Introduction of coding in early years
- Future competencies of data tech, knowledge, skills and attitudes in all curricula integrated in iterative ways
- Teacher skills developed

- **ENTREPRENEURSHIP EXPANDED RIGOROUSLY ACROSS ALL SUBJECTS WITH ACTIVITIES BEING LEARNER-CENTRED AND CHALLENGE-BASED.**

E³ AS A SOLUTION

E³ is the DBE's programme to **REACH 25MILLION SOUTH AFRICANS** over a 20 year programme

Students will leave school with a more self-reliant, solution-oriented mindset

WHY?

They will be prepared either for further learning (**EDUCATION**), able to find jobs (**EMPLOYABILITY**) or prepared to start their own businesses (**ENTREPRENEURSHIP**)

E³ will **DEVELOP PEDAGOGY** and **TRAIN TEACHERS** so that learners have the skills required to **BUILD THE ECONOMIC ENGINE** of the country...

HOW?

...by co-creating and embedding the **ENTREPRENEURIAL MINDSET** in youth

WHAT?

...through problem-solving, reflection, iteration and solution-oriented pedagogy

GOODWILL

E³ has access to massive leverage opportunities to achieve this such as...

The full support and encouragement of the **PRESIDENT**

The whole of the **EDUCATION DEPARTMENT** as a resource

World class curriculum input from **INTERNATIONAL BEST PRACTICE** freely shared

POWERFUL RESOURCES, experienced partners committed to giving freely such as:

NECT: Change management expertise, scale and roll-out experience, curriculum experts, political/social/corporate access at all levels of society

NLF: Access to all data on schools in the entire country with tech solutions that are tried and tested

CIVIL SOCIETY ready to provide expertise

BUSINESS SECTOR eager to be part of the solution

ACCESS TO MEDIA for promotion, exposure, lobbying and advocacy opportunities

COMBINING the goodwill, the resolve, the resources, the access...E³ will reform the way teaching is taught and learning is learned so that:

- by **EMPOWERING** all South African **TEACHERS** to teach using the E³ pedagogy
- and having ALL students be engaged in learning and motivated to be "**ENTREPRENEURIALS**"
- then **100%** of students in SA will complete school with the motivation to continue studying, get a job or start their own business thereby creating a **NEW SA OF ENGAGED CITIZENS**.
